

# PJR SERVICES BULLETIN

## PJR Goes Wild

We are proud to share that we have officially become Corporate Members of The Wildlife Trust!

It was an honour to be presented with our membership certificate back in June, which will be hung in pride of place in our yard, a daily reminder of our commitment to protecting local wildlife and supporting conservation efforts in our community.

We are excited to be part of a network that works tirelessly to safeguard nature for future generations. Supporting organisations like the Essex Wildlife Trust helps to make a real difference for nature across our county.

Here's to positive action and meaningful partnerships with The Wildlife Trust!

For more information on the work the trust does in and around the Essex area, please visit [essexwt.org.uk](http://essexwt.org.uk).

## Unusual Yard Visitor

We were surprised to spot an unusual little visitor in the yard in July - an Elephant Hawk Moth! With its vibrant pink and olive green wings, it looked more like a tiny tropical creature than something you'd find locally. The caterpillars are usually brown and reach 8 cm in length with a 'horn' at the rear. Nature never stops surprising us.

## SUMMER ROUND-UP

**Nature Restored:** We recently completed a garden transformation project in Hullbridge for the Essex Wildlife Trust. An overgrown and cluttered garden was cleared to create a more inviting and sustainable environment. Native plants were reintroduced to encourage pollinators, and thoughtful design ensured the space would support local wildlife throughout the seasons.

**Grounds for Celebration:** We have the best customers! A recent visit to Cherry Lanes Garden Centre to maintain grounds resulted in a free round of coffees in their garden cafe as a thank you. Such a kind gesture which made our day. It's the little things that remind us why we love what we do.

## BOREDOM BEATER

Can you solve the brain teaser?  
(Answer, below)

What is more useful when it is broken?
